How to Enjoy This Book

Welcome, and thank you for choosing this book. Inside you will find more than a hundred puzzles of ten different kinds: word searches, sudoku, crosswords, mazes, picture puzzles, memory games and more. Every puzzle was made for this book, and every one is printed in large, clear type so you can enjoy it without squinting.

Many people like puzzles as a pleasant way to keep their mind busy and active. A puzzle a day is a little like a walk around the garden: nobody is timing you, there is no right speed, and the point is simply to enjoy it.

Three ways to use this book

1. **Print the pages.** This book is a PDF file. You can print any page at home, or ask a library or print shop to print it for you. Then solve with a pencil, just like a puzzle book.
2. **Solve on a tablet.** Many free PDF apps let you write on the page with your finger or a stylus. Look for a pen or "mark up" button in your app.
3. **Use a notebook.** For word scrambles, word ladders and memory games, you can simply write your answers on paper.

GOOD TO KNOW

If a page looks small on your screen, zoom in by spreading two fingers apart on a tablet, or by holding the Ctrl key and pressing + on a computer.

Easy, medium and harder

Each puzzle has stars at the top of the page:

★ ☆ ☆ Gentle. A relaxed warm-up.

★ ★ ☆ Medium. A little more thinking.

★ ★ ★ Harder. Take your time and come back to it.

Within each part, the puzzles start easy and slowly get harder. There is no need to go in order, though. Dip in wherever you like.

Stuck? That is part of the fun

If a puzzle beats you, put it down and come back later. You will often see the answer straight away with fresh eyes. And if you really want to know, every answer is at the back of the book. Peeking is allowed!

TRY THIS

Do puzzles with a friend or grandchild. Read the crossword clues out loud, race each other on a word search, or test each other on the memory games. Puzzles are even better shared.

No timers. No scores. Just you, a pencil and a cup of tea.

PART 1

Word Searches

Each grid hides a list of words. Find each word and draw a ring around it, then tick it off the list.

- ✓ Words run across, down or diagonally.
- ✓ In the ★ ★ ★ puzzles, some words also run **backwards**.
- ✓ Letters can be shared by two words.

> **GOOD TO KNOW**
>
> Look for an unusual letter first, like the Z in DRIZZLE or the Y in RHYTHM. It is easier to spot than a common letter.
