

AI CREATOR PRO KIT

FREE PREVIEW

A practical starter sample for creators, freelancers, and small businesses who want to use AI to create content faster.

Inside this free sample

- 5 ready-to-use AI prompts
- A simple prompt formula
- A quick example to help you get started

Want the complete toolkit? The full AI Creator Pro Kit includes 100 prompts across 10 categories, a 30-day content plan, reusable templates, and practical freelance/product-launch checklists.

Use this preview to test the style and usefulness before deciding whether the full kit is right for you.

5 Prompts You Can Try Today

Copy a prompt into your preferred AI tool and replace the bracketed details with your own information.

1. Content ideas

Act as a content strategist for [type of business]. My audience is [audience] and my main goal is [goal]. Give me 10 useful content ideas, each with a clear hook and a one-sentence explanation.

2. Short-form video

Create a 30-second video script about [topic] for [platform]. Start with a strong 2-second hook, use simple spoken language, include 3 key points, and finish with one natural call to action.

3. Social caption

Write 3 caption options for a post about [topic] aimed at [audience]. Make one friendly, one educational, and one bold. Avoid exaggerated claims and end each with a relevant question or call to action.

4. Weekly plan

Build a realistic 5-day content plan for [business/creator niche] on [platform]. For each day, include the content format, topic, opening hook, and intended audience benefit.

5. Freelance offer

Help me describe a beginner-friendly freelance service for [skill]. Suggest a clear service name, what is included, what is not included, 3 questions to ask a client, and a short professional pitch.

A simple formula for better prompts

Role + Audience + Goal + Format + Constraints

Example: "Act as a friendly fitness content creator (role). Write for busy beginners (audience). Help them stay consistent (goal). Give me a 5-slide carousel (format). Use simple language and avoid medical claims (constraints)."

This is a free sample, not the complete product. The paid kit contains the full collection and additional planning resources.
