

Neon Runner HTML5 Game

Playable Browser Game Preview

A fast, lightweight arcade game starter

Neon Runner is a self-contained HTML5 browser game built with plain HTML, CSS, and JavaScript. Guide the runner, avoid incoming obstacles, build your score, and restart instantly after a collision.

Preview features

- Keyboard-controlled gameplay
- Jump mechanic
- Moving obstacles
- Score tracking
- Collision detection
- Restart flow

- Responsive mobile-friendly layout
- No external framework required
- Easy-to-edit source code

Controls

Keyboard: Use the spacebar or the on-screen control to jump over obstacles.

Goal: Stay alive, avoid collisions, and achieve the highest score possible.

What the full product includes
