THE PROBLEM, SOLVED

Freelancing is hard enough. Your tools shouldn't add to it.

You track hours in one app, keep clients in another and write invoices in a third. Details slip. Invoices go out late. SoloDesk puts all three in one light app, so you spend your day on the work — not the admin.

-  **Simpler**
One app, one place to look. No more tab-juggling.
-  **Faster**
Start a timer, add a client or send an invoice in a few taps.
-  **Offline**
Works without internet. Your data never leaves your phone.

WHAT'S IN IT FOR YOU

One screen shows what you're owed, what's overdue and the hours you've logged.

CLIENTS & PROJECTS

Every client, one tidy list.

Stop digging through email threads for a phone number. Each client lives in one place, with their projects right beside them.

**Contact details at hand**

Email, phone, notes and tags saved with every client.

**Projects linked to clients**

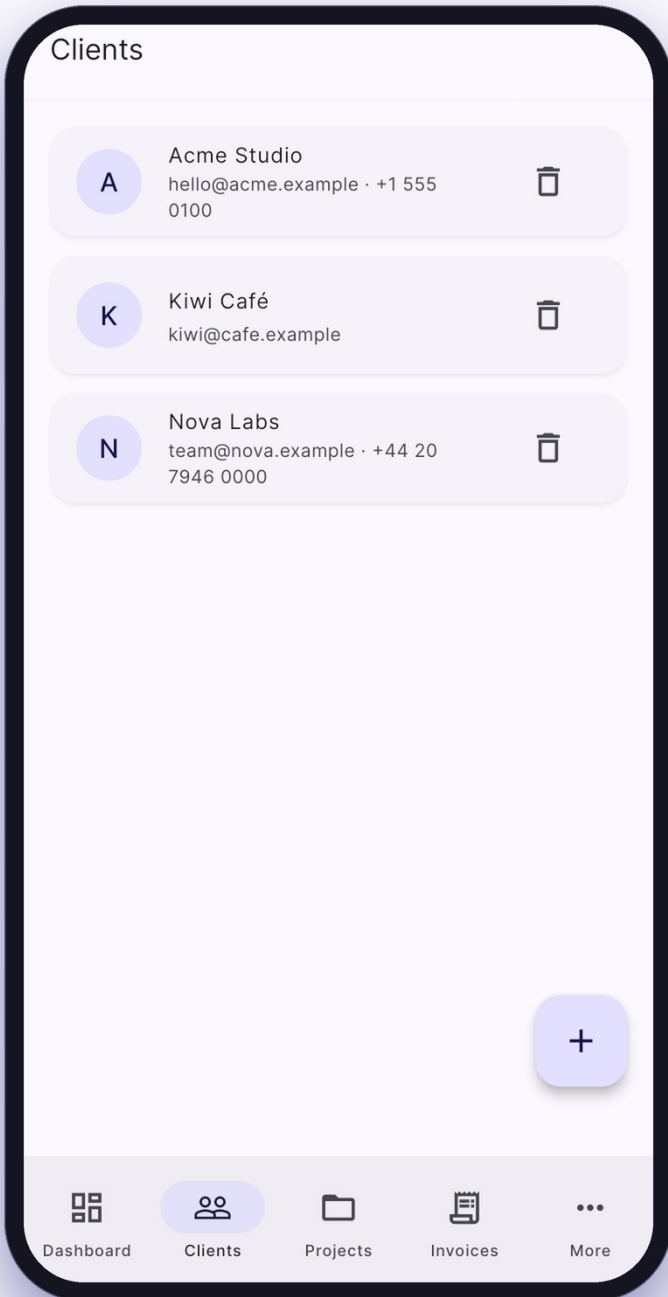

See what you're working on, and who it's for.

**Find anyone fast**

Search, filter and organize clients by status.

**Room to grow**

Start with 5 clients free. Go unlimited with Pro.

WHAT'S IN IT FOR YOU

Know who you're working for and how to reach them — in two taps.

TIME TRACKING

Every billable minute, counted.

Start the timer, switch apps, get on with your day. SoloDesk keeps counting in the background, so the hours you worked are the hours you bill.

**Background timer**

Keeps running even when the app is closed.

**Always in sight**

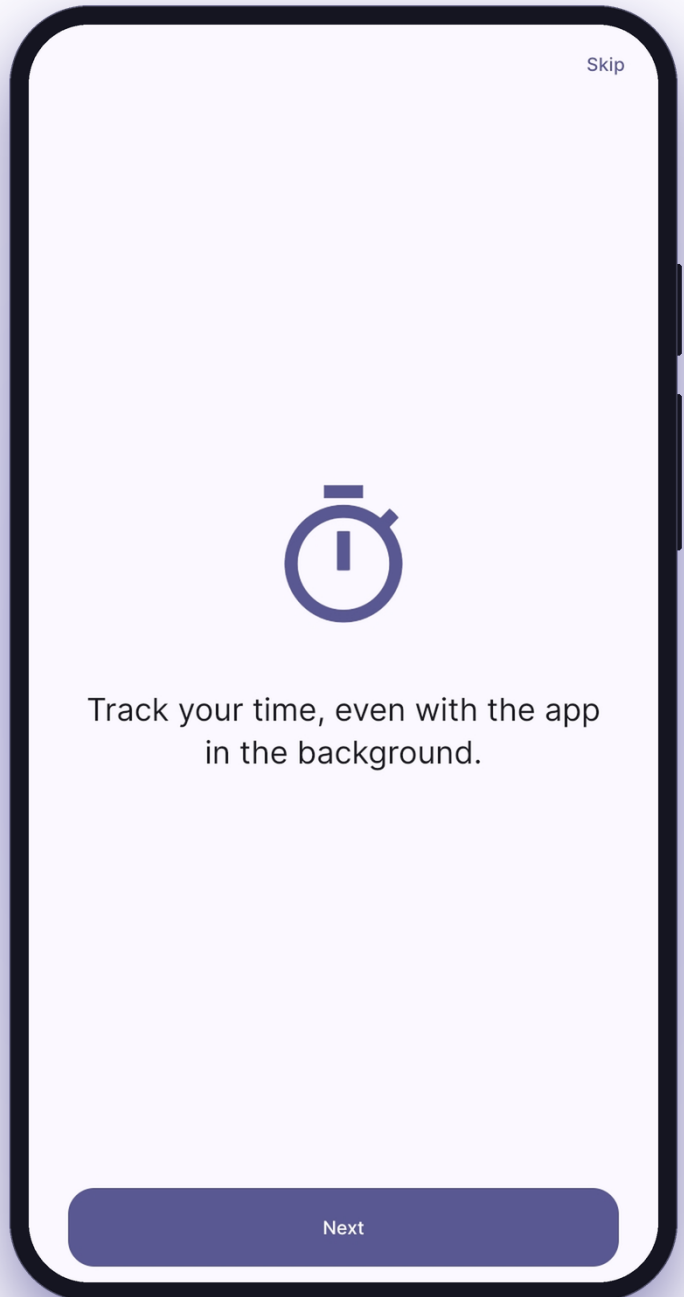

A system chronometer notification shows your running time.

**Forgot to start it?**

Add time manually with a date and duration.

**Weekly & monthly reports**

See where your hours actually go.

WHAT'S IN IT FOR YOU

Stop losing billable hours to a timer you forgot about.

INVOICING & PDF EXPORT

Professional invoices, ready to send.

Turn finished work into a clean PDF invoice in minutes. Add your branding, pick a look, and get paid sooner.

3 built-in templates

Classic, Modern or Minimal. Pick the look that fits you.

Your brand on top

Business name, email and logo on every invoice.

Currencies, tax, discounts

USD, EUR, IRR and more, calculated automatically.

Know what's paid

Track every invoice: Draft, Sent, Paid or Overdue.

Description	Quantity	Price	Total
App development	12	80.00	960.00
		Subtotal	960.00 USD
		Total	960.00 USD

WHAT'S IN IT FOR YOU

Send a polished PDF and look as professional as your work.

DASHBOARD & REPORTS

See where your business stands, at a glance.

Open the app and know your numbers. No spreadsheets, no guesswork — just clear figures to help you decide what to do next.

Outstanding

Money still on its way to you

Paid this month

Cash that has landed

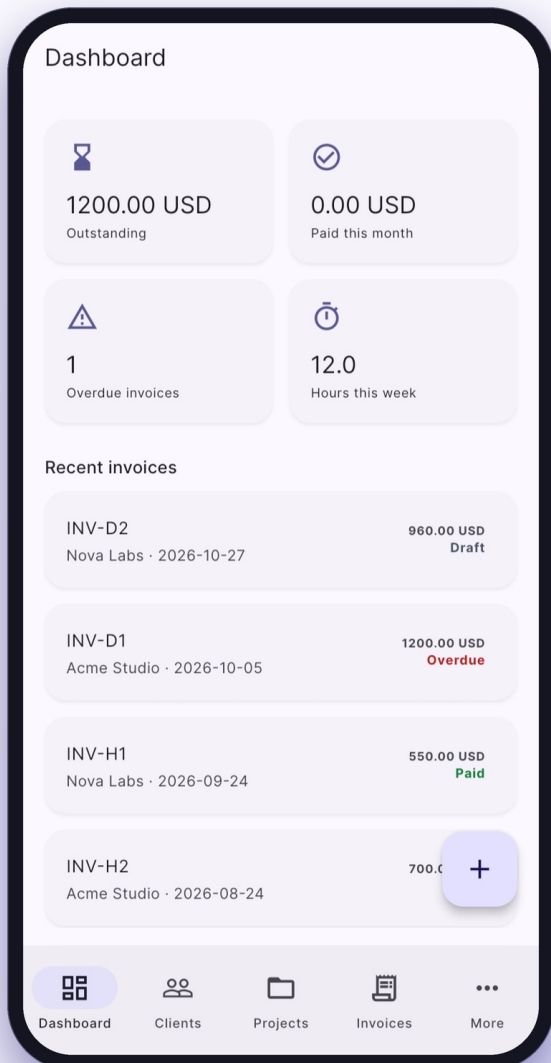

Overdue

Invoices past due

Hours this week

Time you've logged

Check what you're owed before your first coffee.

See revenue and expenses side by side, month by month.

SECURITY, LANGUAGES & THEMES

Private by design. Personal by choice.

Your clients' details and your finances stay on your phone. No accounts, no servers, no tracking — and the app speaks your language.

**100% offline**

No servers, no tracking, no accounts. All data stays on your device.

**Locked when you say**

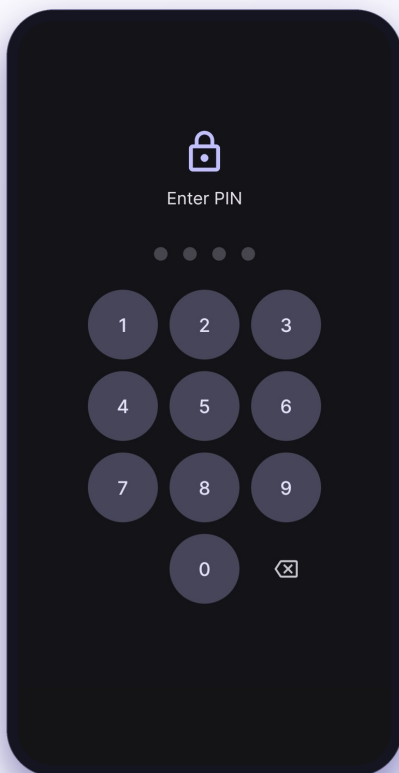

Protect the app with a PIN, with fingerprint support.

**10 languages**

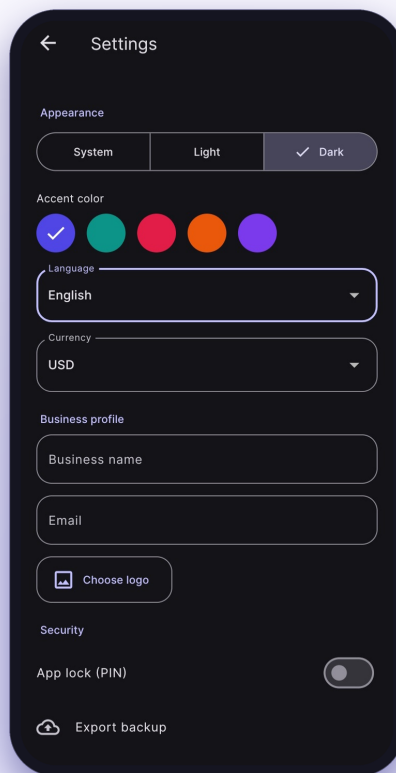

English, Persian, Arabic, Spanish, French, German, Portuguese, Russian, Hindi, Chinese. Full RTL for Persian and Arabic.

**Make it yours**

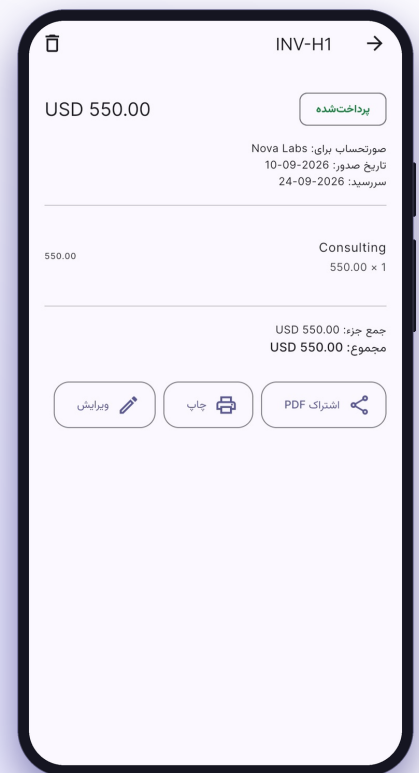

Light, Dark or System theme, plus 5 accent colors.

Your numbers stay yours. Lock the app with a PIN.

Dark mode, accent colors, language and currency, your way.

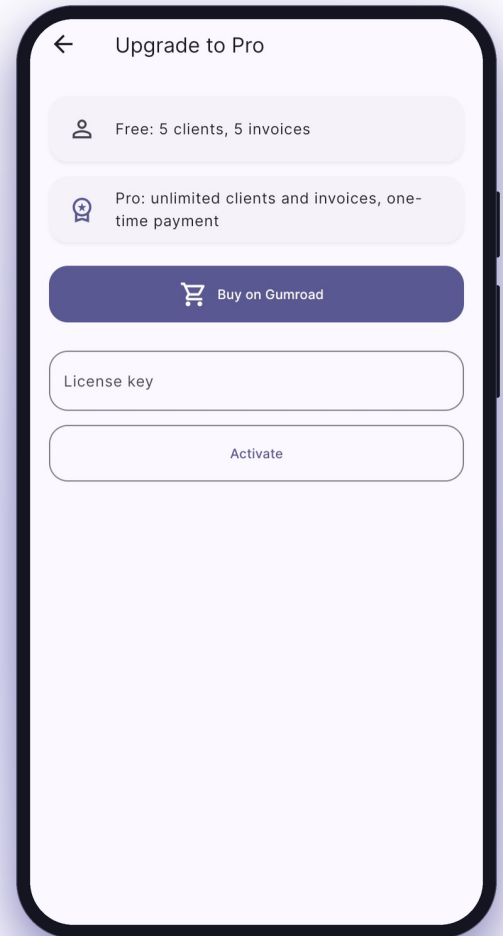

True right-to-left layout for Persian and Arabic.
